

"PUSH PRONG" RCA

**A Revolutionary, Re-usable, Solderless RCA plug.
Quick Easy Termination**

**Designed to work with Straight Wire's NEW SILVER 23 SERIES
Single, Double & Triple, UL rated co-joined cables
Also works with Straight Wire's Silver 3,5 & Silver Bundle**

1. Strip center conductor approx. .25" to .33"
Load barrel over the wire.

2. Push conductor into center hole while slightly rotating the wire

3. Push three prongs into the jacket with thumb to pierce and contact the shields.

4. Screw on barrel while holding RCA flange
That's all folks!!
